

BENCHMARK PROJECT MANAGEMENT (UK) LTD – CASE STUDY

Title

Colour Asphalt at High Kingsdown Playground

General Scope:

Work included:

- Shaping and installation of aluminium path edging to defined areas on the existing asphalt surface
- Regulating falls by installing 6mm stone asphalt while keeping to tight depth restrictions
- Ground condition survey to establish correct cutting and disposal of sections of existing asphalt surface to ultimately allow the install of new
- Supply and installation of Tarmac Ulti-Colour in a Buff Quartzite

Dates:

July 2018

Client:

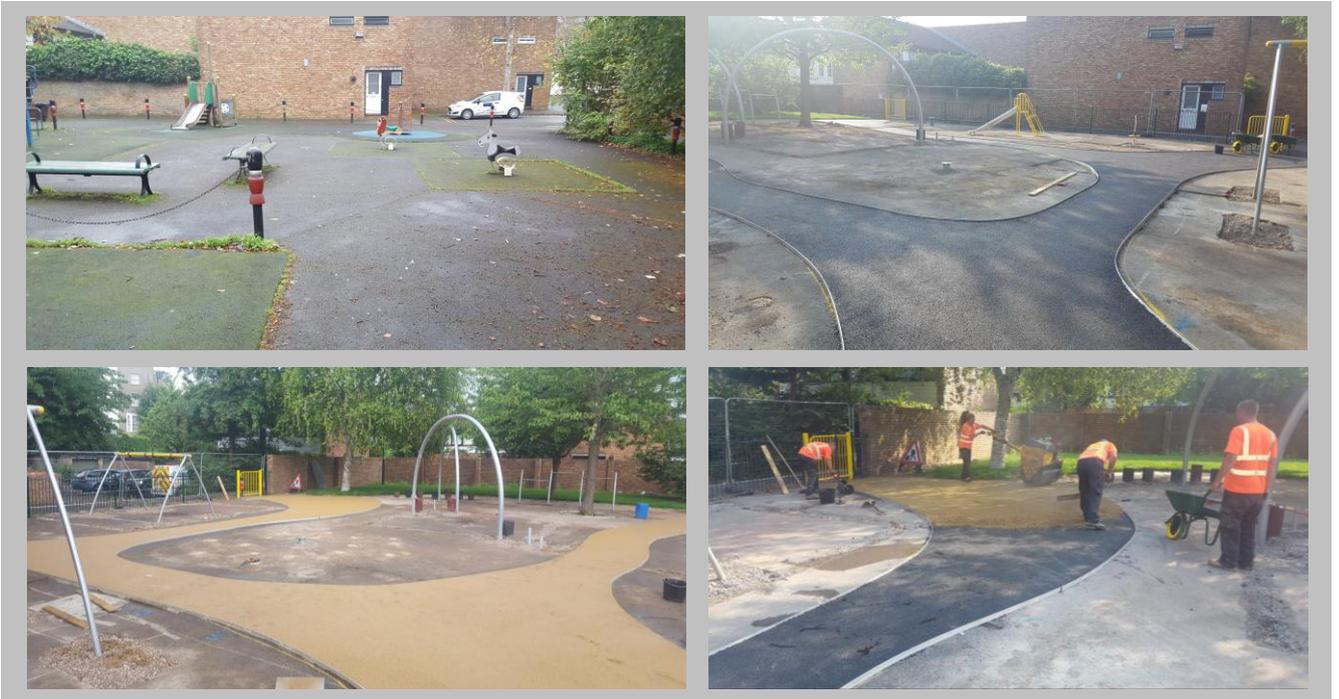

Bristol City Council

Value:

£14,000.00

Innovation:

- Bristol City Council were making improvements to the existing playground at High Kingsdown after it had become extremely dated and unsafe. Benchmark were approached by Bristol City Council and asked to supply and install a curvy, contrasting path using a coloured asphalt along with a durable aluminium edging, all to be installed on top of the existing surface.

Customer Satisfaction:

“A job very well done, as expected. Thanks”
Bristol City Council Manager
